PROJECTS

YOUTUBE CLONE

I recently developed a YouTube clone using HTML and CSS, showcasing my ability to recreate complex user interfaces with precision and attention to detail. Through this project, I honed my skills in layout design, styling, and responsiveness, delivering a seamless browsing experience reminiscent of the original platform.

TIC TAC TOE GAME

I've developed a classic Tic Tac Toe game using HTML, CSS, and JavaScript. With a clean interface and smooth gameplay, players can enjoy this timeless game on any device. This project showcases my frontend development skills and creativity in crafting interactive web-based games.
